Statement on California Driver License Design for Undocumented Immigrants Approved by Department of Homeland Security

"I am pleased that the Department of Homeland Security has finally given the approval of a design for California driver licenses for undocumented immigrants.

This driver license will be the best offered by any other state in the nation. The new design will have the phrase "FEDERAL LIMITS APPLY" on front of the card with a small font on the right hand corner and would be the least intrusive while complying with the Real ID Act.

I look forward to seeing the California Department of Motor Vehicles implement the new design so that over a million motorists in California will make our highways safe and secure.

I want to thank Governor Jerry Brown for his courage and leadership on moving this issue forward, and especially thank Legislative Affairs Secretary, Gareth Elliott, for working with the Department of Homeland Security to make sure that a design acceptable to all parties was agreed upon."
